**Submission to DMS-NHTSA-2000-7580, Elizabeth Fisher's
petition for seat belt extenders and longer seat belts.**

Dear Administrator:

Enclosed are signatures and contact information from law enforcement
personnel supporting my petition to amend Federal Regulation
571.209 Standard No. 209. Seat Belt Assemblies.

Sincerely,

Elizabeth Fisher

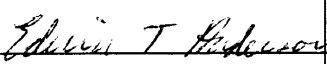

RECEIVED
OCT 1 1992
10 1 1992
10 1 1992

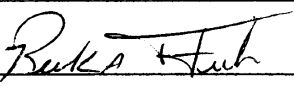

Dear National Highway Traffic Safety Administration:

Requiring seat belts to fit passengers only up to 215 pounds isn't enough! Please help make me and those I care about safer in our vehicles by requiring auto manufacturers to make longer seat belts and seat belt extenders available for any passenger who fits in a vehicle.

I support Elizabeth Fisher's petition to amend Federal Regulation SEC. 571.209 Standard No. 209. Seat Belt Assemblies.

To view a copy of the existing federal regulation requiring automobile manufacturers to make their seat belts fit passengers only up to 215 lbs, to see a copy of the petition filed with NHTSA, or for additional information on what you can do if your seat belt does not fit (some manufacturers make seat belt extenders available to their customers), visit <http://www.elfisher.com>. Contact Elizabeth Fisher by email: elizabeth@elfisher.com.

Dear National Highway Traffic Safety Administration:

Requiring seat belts to fit passengers only up to 215 pounds isn't enough! Please help make me and those I care about safer in our vehicles by requiring auto manufacturers to make longer seat belts and seat belt extenders available for any passenger who fits in a vehicle.

I support Elizabeth Fisher's petition to amend Federal Regulation SEC. 571.209 Standard No. 209. Seat Belt Assemblies.
